

## DEAREST GUESTS!

Although the Canary Islands are the territory of Spain, the flight here is not a short one. Taxi, check-in, controls, boarding, the flight itself, baggage claim, and other technical processes on the way are exhausting. In addition to all of this, once you finally get to your Canarian home, you will need somewhere to buy basic groceries for the first few days. We are aware of this, and we are doing our best to make sure that you can focus solely on your holiday once you arrive on the sunny island.

For your convenience,  
we offer our concierge  
service called

**#foodbox.**

### How does it work?

- 1 You check the range of products on the websites of supermarkets and fruit shops and choose the necessary items
- 2 You send us a list of said items.
- 3 We purchase everything you need and deliver it to your apartment before your arrival.

This way, you will not have to think about that trip to the supermarket or about what to feed your children after the flight. The freshest groceries will be waiting for you in the refrigerator!

**Enjoy your vacation to the fullest.  
We will take care of the rest!**

### **Cost of the #foodbox service: 50€**

Cost of groceries: according to the receipt given upon purchase  
Payment for the service and the cost of the groceries will be made upon check-in cash or by credit card.

## Supermarkets where you can choose any item you like:
